Canon Speedlite Flashes  
Are Named After Their  
Guide Numbers

Canon give a guide  
number of 36m@ 35mm  
& ISO 100. The guide  
number depends on the  
zoom setting (focal  
length) of the speedlite  
as this controls how the  
light spreads out.

Manufacturers often include a table of rated guide numbers as various focal lengths in the back of the operator's manual.
