opportunities to capitalize on and expand their range of investments, and has moved real estate investing from a niche product to a pillar of smart portfolio diversification. In *Making Money in Real Estate, 2nd Edition*, Douglas Gray demystifies the Canadian real estate market for novice investors and presents new strategies for veteran investors. Learn to:

- Understand the real estate market cycles
- Find a property and assess its investment potential
- Build a trustworthy real estate team
- Arrange financing on good terms
- Use negotiating tactics that work
- Understand tax and legal issues
- Manage a property
- Avoid the pitfalls that many investors fall into

non-residential property investment options Readers of previous editions will appreciate the vital changes to mortgage rules, taxation and legislation, and the inclusion of information on commercial real estate. Thorough coverage in plain English makes Making Money in Real Estate, 2nd Edition the next logical step for investors who want to begin or expand their real estate portfolios, and is a critical and indispensable tool in investment decision making.

Documenting important milestones in the epic journey traversed by the Central Bank of Kenya (CBK) over the last 50 years, 50 Years of Central Banking in Kenya puts into

perspective the evolution of central banking globally and within the East African region, and contemplates future prospects and challenges. The volume is timely, mainly because within the last 50 years the global financial landscape has shifted. Central bankers have expanded their mandates, beyond the singular focus on inflation, and consider economic growth as their other important objective. Bank regulation has moved from Basel I, to Basel II, and some countries have fully migrated to Basel III while some are still at the cross-roads. 50 Years of Central Banking in Kenya captures the wide-ranging discussions on central banking, from a symposium to celebrate the 50

year anniversary on 13 September 2016 in Nairobi. The participants at the symposium included current and former central bank governors from Kenya and the East Africa region, high level officials from multilateral financial institutions, policy makers, executives of commercial banks in Kenya, private sector practitioners, civil society agents, executives and researchers from think tanks based in Kenya and the Africa region, leading academics in banking and finance, and university students. Beyond the symposium, the volume highlights the evolution of specific functions of CBK over the last 50 years (such as monetary policy, bank regulation, and payments

system), as well as developments in Kenya's financial system which strongly relate to the functionality of CBK, such as financial innovation, the evolution of financial markets, and non-bank financial institutions in Kenya.

National Bestseller "A harrowing tale of the perils of high-altitude climbing, a story of bad luck and worse judgment and of heartbreaking heroism."

—PEOPLE A bank of clouds was assembling on the not-so-distant horizon, but journalist-mountaineer Jon Krakauer, standing on the summit of Mt. Everest, saw nothing that "suggested that a murderous

storm was bearing down." He was wrong. The storm, which claimed five lives and left countless more--including Krakauer's--in guilt-ridden disarray, would also provide the impetus for *Into Thin Air*, Krakauer's epic account of the May 1996 disaster. By writing *Into Thin Air*, Krakauer may have hoped to exorcise some of his own demons and lay to rest some of the painful questions that still surround the event. He takes great pains to provide a balanced picture of the people and events he witnessed and gives due credit to the tireless and dedicated Sherpas. He also avoids blasting easy targets such as Sandy Pittman, the wealthy socialite who brought an espresso maker along on the expedition.

Krakauer's highly personal inquiry into the catastrophe provides a great deal of insight into what went wrong. But for Krakauer himself, further interviews and investigations only lead him to the conclusion that his perceived failures were directly responsible for a fellow climber's death. Clearly, Krakauer remains haunted by the disaster, and although he relates a number of incidents in which he acted selflessly and even heroically, he seems unable to view those instances objectively. In the end, despite his evenhanded and even generous assessment of others' actions, he reserves a full measure of vitriol for himself. This updated trade paperback edition of *Into Thin Air* includes an

extensive new postscript that sheds fascinating light on the acrimonious debate that flared between Krakauer and Everest guide Anatoli Boukreev in the wake of the tragedy. "I have no doubt that Boukreev's intentions were good on summit day," writes Krakauer in the postscript, dated August 1999. "What disturbs me, though, was Boukreev's refusal to acknowledge the possibility that he made even a single poor decision. Never did he indicate that perhaps it wasn't the best choice to climb without gas or go down ahead of his clients." As usual, Krakauer supports his points with dogged research and a good dose of humility. But rather than continue the heated discourse that has raged since

Into Thin Air's denouncement of guide Boukreev, Krakauer's tone is conciliatory; he points most of his criticism at G. Weston De Walt, who coauthored The Climb, Boukreev's version of events. And in a touching conclusion, Krakauer recounts his last conversation with the late Boukreev, in which the two weathered climbers agreed to disagree about certain points. Krakauer had great hopes to patch things up with Boukreev, but the Russian later died in an avalanche on another Himalayan peak, Annapurna I. In 1999, Krakauer received an Academy Award in Literature from the American Academy of Arts and Letters--a prestigious prize intended "to honor writers of

exceptional accomplishment." According to the Academy's citation, "Kraakauer combines the tenacity and courage of the finest tradition of investigative journalism with the stylish subtlety and profound insight of the born writer. His account of an ascent of Mount Everest has led to a general reevaluation of climbing and of the commercialization of what was once a romantic, solitary sport; while his account of the life and death of Christopher McCandless, who died of starvation after challenging the Alaskan wilderness, delves even more deeply and disturbingly into the fascination of nature and the devastating effects of its lure on a young and curious mind."
