Geosynthetics are extensively used in highway construction as they play the role of a separator, filter, reinforcement, stiffener, drainer, barrier, and the protector of pavements. Geosynthetic materials are planar, polymeric (synthetic or natural) materials used in contact with soil/rock... Application of Lasers in Highway Engineering [PDF]

Highway Engineering Archives - The Constructor

Highway Engineering is intended as a text for undergraduate students on degree and diploma courses in civil engineering. It does, however, touch on topics which may be of interest to surveyors and transport planners. The book does not see itself as a substitute for courses in these subject areas, rather it demonstrates their relevance to highway engineering.
