One-Stop Business Management System - iMerchant by Passfeed

Definition: Management control systems are the formal and informal structures put in place by a business that compare the goals and strategy of the organization against the actual outcomes.In other words, it measure how well the functions of a business and the business as a whole perform and meet objectives. This comparison is then reviewed and used to drive managerial decisions.

Past research has traditionally argued that management control systems (MCSs) may present a hindrance to the creativity of innovation companies. This theoretical paper surveys the literature to focus an investigation on the MCSs of innovation companies. Within the object of control paradigm the paper develops and presents a theoretical model of the impact of eleven external, organisational and ...

Management control systems in innovation companies: a ...

Control is a function of management which helps to check errors in order to take corrective actions. This is done to minimize deviation from standards and ensure that the stated goals of the organization are achieved in a desired manner.

9780273737612 - Management Control Systems: Performance ...

After strategies are set and plans are made, management's primary task is to take steps to ensure that these plans are carried out, or, if conditions warrant, that the plans are modified. This is the critical control function of management. And since management involves directing the activities of others, a major part of the control function is making sure other people do what should be done.
