Download Ebook Professional Ethics And Values In Engineering

Values and ethics Values refer to the rules which an individual uses in order to make decisions which determine whether an action is right or wrong. Ethics refers to a formal codified behavior which a particular group of people upholds (Alavudeen, 2008). As a result, each professional group has specified values which it follows.

Professional values and ethics - Free Business Essay ...

Ethics and values are what make us human beings. In order to lead a meaningful life (even though it is practically impossible to achieve that perfection, among the erosion of values, morals, and integrity), some code of conduct must be laid down and followed honestly.

Personal and Professional Ethics: 4 Points of Difference

...

Ethics are consistent, whereas values are different for different persons, i.e. what is important for one person, may not be important for another person. Values tell us what we want to do or achieve in our life, whereas ethics helps us in deciding what is morally correct or incorrect, in the given situation.

Difference Between Ethics and Values - Key Differences
