Tracing the roots of the modern American University in German philosophy and in the work of British thinkers such as Newman and Arnold, Bill Readings argues that historically the integrity of the modern University has been linked to the nation-state, which it has served by promoting and protecting the idea of a national culture. But now the nation-state is in decline, and national culture no longer needs to be either promoted or protected.

The University in Ruins? Dominick LaCapra Just before his untimely death, Bill Readings finished writing a book that will be a center of discussion and an object of critical dialogic exchange for some time to come. The University in Ruins contains an argument that should be considered carefully by academics, administrators, and the general public.'

The University in Ruins?

Bill Readings has left us a sobering diagnosis of the positions of researchers, teachers and administrators in what he calls the "post-historical" university. As his title suggests, he sees the contemporary university as a "ruined institution," arguing primarily against redemptive and nostalgic visions of the rebirth of citizenship or reason as central to the purpose of the institution.

Bill Reading's Cormac-McCarthy-esque assessment of higher education, *The University in Ruins*, tries in vain to find that hundredth question. The domain of the university, ideally reserved for the kind of high-minded pondering that produces nuclear weapons and Nobel prizes, has become just another marketplace.
